We hear often of the high expectations schools have of students. But what about the expectations that students like you have of schools? These get less attention, but are essential to keep students engaged and in school. So we invite you, the student, to help determine whether YOUR school expectations are being met. Complete this rubric, calculate your score, and visit the last page for advice and resources you can use to make your learning relevant to YOU!

<td>You are highly engaged in learning at your school (and probably in learning outside of your school!). Your school (including your teachers, advisors, and leaders) deserves a lot of credit for this, but so do you. The most engaged students are the ones that are deliberately at the center of their own learning, so schools that offer personalized-learning approaches often find a student body that is more motivated, more successful, and—quite frankly—happier.</td>
<td>You are moderately engaged in your own learning. It is likely that your school excels at meeting some of your expectations, but may fall short in others. In many cases, this is due to competing priorities. As much as your school (including your teachers) may be dedicated to meeting your expectations, they are also beholden to other stakeholders. Still, if your school wishes to keep you engaged and motivated, it will be well worth their time to hear from you about the areas that your learning needs and expectations are not being met.</td>
<td>Unfortunately, it doesn't appear that your school is meeting your expectations, which may mean that you don't feel very connected to your own learning and, as a result, may not even be motivated to learn in the first place. This may illustrate itself in ways as simple as losing focus and interest in class, or in more dramatic ways such as poorer grades, higher rates of absenteeism, and—worse—potential to drop out altogether. In circumstances like these, students and families often seek out alternative opportunities for schooling (such as charter schools, private schools, or innovative school networks like Big Picture Learning).</td>
